Dear Dockets Management Branch (HFA-305), Food and Drug Administration,

I am writing in regards to the regulations requiring irradiated food to be labeled as such. As a health conscious and environmentally concerned consumer, I have no desire to purchase or support irradiation, let alone eat irradiated food. We (consumers) have the right to know what has been done to our food.

Thus I support prominent labeling of irradiated foods. I believe the FDA should require that all food, packaged or fresh, that has been irradiated include both the logo for irradiation and a statement like, "Treated by irradiation." These labels should not be hidden in the list of ingredients but prominently displayed.

Please help keep the choice in the consumer's hand!

Thank you,

Tamara Egan
